

Mobifox *MobiFuel*

The Level Monitoring System from Mobifox provide an efficient solution for remotely measuring tank levels.

It gives a big advantage to fill up fuel tanks *Just in Time*. Not too late and not too early. This saves time and money. It limits the possibility that the fuel runs out and increases customers' satisfaction.

MobiFuel

This compact controller unit can be installed easily. Through its easy connection plugs, it can be installed simple, quick and reliable.

Up to 7 Float- and Pressure sensors

MobiFuel controller unit is unique in its kind. It can measure up to 7 tanks and supports different kind of sensors, like: Float level sensors, pressure level sensors, temperature sensors, hall sensors, etc.

Mobifox Cloud

All measure data is transmitted wirelessly to the Mobifox Cloud server. Here all data is presented in clear graphics and management information. At a glance level status is shown and fuel desire is clearly presented. Personal settings can be configured like: dial in frequency, dial in moment, log in access for end users, alarm notifications, API settings.

With – or without GPS

The MobiFuel can be delivered with **GPS functionality**. Actual position of a tank can be looked up on a map and a trail can be shown where tank has been, for how long.

API (Application Programming Interface)

The Mobifox Cloud standard offers an API to exchange data to 3rd party systems. Exports and Imports can be configured easily. The Mobifox platform is based on open source layout for convenient and reliable integration.

Real-time

The MobiFuel is standard equipped with a long-lasting battery-pack (from 2-4 years based on dial in frequency). It is also possible to connect main power. This gives the advantage to increase dial in frequency to less than one minute so that always actual level is shown in webportal.

Different products, different tanks

De Mobifox solutions can be installed on several kinds of tanks with different kinds of products like: above-ground tanks, underground tanks, mobile tanks, diesel, adblue, lubricants, LPG, water, etc.
